Hi Ritesh,

As part of the onboarding process for the TAAF engagement, we are conducting brief technical screening session. This is a standard step to ensure alignment on technical capabilities relative to the role requirements for this engagement. This will be an informal discussion focused on relevant technical experience and role fit

What to expect:

- A walkthrough of your experience relevant to the proposed role on this engagement
- Discussion of technical approaches and tooling familiarity

Please confirm your availability for the proposed time or suggest an alternative within the same week if needed.

Thank you.

Regards,
